

## Design Consultant/Business Analyst

### Job Description

This role is a business analyst position responsible for defining practical business solutions for educators based upon our Elements™ product, and designing enhancements to our Elements™ product to extend its reach into the education industry. The ideal candidate has experience as a business analyst with a focus on requirements gathering and solutions design. Experience in the education field is a big plus. We are looking for those who want to translate his or her passion for improving our educational system as part of their career.

### Desired Skills and Experience

- 3-10 years of experience as a business analyst
- 1-2 years in an education industry role preferred
- Creativity in identifying and designing solutions for various business problems
- Comfortable with and knowledgeable of technical considerations for web based solutions
- Ability to understand and adapt to education industry trends
- Ability to define existing processes and design new process flows and models
- Ability to design effective user interfaces
- Ability to develop rapport with and communicate easily with educators
- Ability to communicate effectively with team members
- Exceptional writing skills
- Ability to meet deadlines in a fast-paced environment
- High proficiency in using MS Word, PowerPoint, Excel, Outlook, and Visio
- Driven to succeed as an individual and a team
- Four year degree required, advanced degree preferred

### Job Location

- Canton, GA (Atlanta)
- Travel requirements – 20-25%

### Thinkgate, LLC

Thinkgate provides solutions to school districts, boards, and municipalities that are committed to improving student achievement and teacher effectiveness. Our solutions include expertise in allowing educators to modify their strategy, curriculum, and related educational resources in real-time to allow teachers to personalize their instruction by student in the classroom. Our propriety Elements™ architecture provides the foundation for this Continuous Learning Improvement Loop. The Thinkgate headquarters are located outside of Atlanta, GA.
